

Management Development Program on Essential Management Competencies for better patient care

Date: 11 -15th September 2017

Management Development Program on “Essential Management Competencies for better patient care” for practicing executives, doctors, nursing officers and other allied professionals for Apollo Hospital has been organized from September 11- 15, 2017 at IIHMR Delhi. The objective of the program is to address the niche need for professionally trained 'business managers of tomorrow'. The program design aims at building high-end operational competencies and nurturing business acumen among the employees of Apollo Hospital.
